ABOUT COMPANY

IDC INTERNATIONAL DESIGN CONSULTANCY COMPANY LIMITED is a registered Vietnam company located in Ho Chi Minh City.

IDC has a large network of local suppliers for the construction industry as well as producers of general products and consumables. Production is available to international standards and in bulk order for shipping to all corners of the world.

We collaborate with international affiliates located in Australia, Hong Kong, Singapore, Japan, Korea, Bangladesh, Canada, the UK, Germany, and Africa.

We seek the best product at the most competitive rate for our customers and ensure quality service through each transaction

TABLE OF CONTENTS

- 1** Latex Examination Powder free gloves
- 2** Latex Examination Powdered gloves
- 3** Latex Surgical Powder free gloves
- 4** Latex Surgical Powdered gloves
- 5** Nitrile Examination Powder free gloves

LATEX GLOVES

Latex Examination Powder free gloves

1. Product type: Latex Examination Powder Free Gloves
2. Product model: LPF 5.8
3. Material: Natural Rubber
4. Brand: N/A
5. Type: Non Sterilized
6. Glove design and Features: Ambidextrous, Single use, Powder Free, Natural color, Fingertip textured
7. Usage: For Single Use Only

APPLICATION:

- Medical: Hospital, Clinic, Dental Clinic, Laboratory, Beauty Care Center, Skin Care
- Food processing, Dairy production, FMCG
- Seafood Processing Industry, Agriculture, Veterinary Care, Animal and Plant Quarantine Station
- Manufacturing Industry: Cosmetics, Pharmaceuticals...

LATEX GLOVES

Latex Examination Powder free gloves

Dimensions:

Product code	Glove size	Palm Width (mm)	Length (mm)	Weight (+/-0.2 gr)
HTC.LPF5.8.XS	XS	Max 80mm	Max 280	4.8
HTC.LPF5.8.S	S	80 +/- 10	Min 280	5.3
HTC.LPF5.8.M	M	95 +/- 10	Min 280	5.8
HTC.LPF5.8.L	L	110 +/- 10	Min 280	6.3
HTC.LPF5.8.XL	XL	Min 110	Min 280	6.8

Thickness:

Location	Single Wall (mm)
Cuff (at 25mm from the cuff end)	Min 0.08
Palm center	Min 0.09
Finger tip	Min 0.11

Tensile:

Force at break before aging	Min 9.0 N*
Force at break after aging	Min 6.0 N*

Powder content: Max 2mg/glove

Protein content: Max 200µg/dm²

Inspection Criteria (Sampling and Inspection ISO2859)

	Inspection Level	AQL
Critical Defects	G1	0.65
Pinhole Test	G1	2.5
Major Defects	G1	4.0
Minor Defects	G1	4.0
Dimensions	S2	4.0
Physical Properties	S2	4.0

Shelf-life: Three (03) years from the manufacturing date

* Measurement Method base on ISO 37

LATEX GLOVES

Latex Examination Powdered gloves

1. Product type: Latex Examination Powdered Gloves
2. Product model: LPP 5.0
3. Material: Natural Rubber
4. Brand: N/A
5. Type: Non Sterilized
6. Glove design and Features: Ambidextrous, Single use, Powder Free, Natural color, Fingertip textured
7. Usage: For Single Use Only

APPLICATION:

- Medical: Hospital, Clinic, Dental Clinic, Laboratory, Beauty Care Center, Skin Care

		Issue Date: 25/04/2023

PRODUCT MODEL:
 HTC.SSPP | HTC.SSPF
 Available Size:
 6.0 | 6.5 | 7.0 | 7.5 | 8.0

Product's description: Latex Surgical Gloves (Sterile)

A) EU MEDICAL DEVICE REGULATORY (MDR 2017/745):

- 1) This product is classified under class IIa Medical Device per Rule 6 of Annex IX, meets the provisions of Medical Device Regulatory 2017/745
- 2) This product complies with European Standards EN455-1:2020, EN455-2:2015, EN455-3:2015, EN455-4:2009.

B) INDICATION FOR USE (IFU):

Sterile Latex Surgical Gloves are intended to be used once in an invasive procedure involving a single patient and permanently discarded after use. These gloves are worn on the hands of healthcare personnel to provide barrier protection from cross contamination between a patient and the healthcare personnel.

C) USAGE

For single use only.

The gloves were made from natural latex which can cause allergic reactions for some individuals. If an allergic reaction occurs, seek medical advice immediately.

D) CONTRA-INDICATIONS

Healthcare personnel and patients with known allergies to chemical and latex protein should avoid contact with latex gloves.

E) WARNINGS

- 1) This product contains natural latex which may cause allergic reactions, including anaphylactic responses.
- 2) Do not use if sealed pouch is punctured, torn, or otherwise compromised.
- 3) Do not use if the glove is visibly torn frayed or damaged.
- 4) Do not re-sterilize.
- 5) Do not use for more than 60 minutes to reduce the risk of strain/fatigue on hands and loss of barrier protection.

F) STORAGE CONDITIONS

Store under cool and dry conditions. Avoid direct sunlight and heat. The gloves are packaged in a dispenser which is suitable for transport. Keep the gloves in the box when not in use.

G) INSTRUCTION FOR USE

- 1) For maximum comfort, choose the gloves size most appropriate to your hands. As surgical gloves are hand-specific, donning the correct size will reduce the risk of strain/fatigue on hands during use.
- 2) Donning: - Prior to donning, perform surgical hand scrub using antimicrobial solution and water.
 - a. when donning, follow 'closed donning' method as described below.
- 3) Dispose the soiled gloves and change to the new gloves immediately if:
 - a. As soon as any damage, puncture or tear (or non-integrity is suspected) is noticed.
 - b. After inadvertent contact with contaminated/unsterile surface.
- 4) In order to reduce the risk of barrier failure and to ensure better protection during surgical procedures which extend beyond 60 minutes, users are advised to change the gloves on hourly basis.

H) PRECAUTION FOR DISPOSAL

Dispose of soiled surgical gloves in accordance with relevant regulations pertaining to safe disposal of clinical waste.

I) CLOSED DONNING METHOD

Step 1: Remove the inner wrap from the pouch carefully without creasing the inner wrap. **Step 2:** Gently lift the right and left side of the inner wrap. **Step 3:** Un-flap the inner wraps from the corner. **Donning right-side:** **Step 4:** Use your left hand to pick the right-side of the gloves by holding the cuff. **Step 5:** Gently slip your fingertips into the gloves, stretch the cuff over the fingers until it fits snugly over the hand. **Donning left-side:** **Step 6:** Use your right hand to pick the left-side of the glove with the cuff. **Step 7:** Gently slip your fingertips into the glove, stretch the cuff over the fingers until it fits snugly over the hand.

J) SYMBOL USED

									
Manufacturer	Date of Manufacture	Authorized representative European Union	CE Mark Symbol	Use by Date/Expiry Date	Lot number	Do not use if package is damaged and consult and consult instructions for use	Medical Device	Single sterile barrier system with protective packaging inside	Do not re-sterilize
									
Keep Dry	Do not Re-use	Unique Device Identifier	Storage Temperature	EIO Sterile symbol	Contains presence of Natural Rubber Latex	Keep away from Sunlight	Electric instruction for use	Non-powder	

K) SHELF LIFE

03 (Three) years from manufacturing date.
